

Experience the future with

HDI edge 2.0 interactive touchscreens build upon HDI's renowned interactive technology to give the ultimate medium for presentations, interaction, and collaboration.

Every HDI edge 2.0 interactive screen incorporates 20 points of touch, dual Wi-Fi for improved AirServer screen sharing, USB-C ports for single cable connectivity, remote management, and access to both the Google Play Store and HDI's own managed app store.

With 4K resolution and a 16:9 wide screen format, the HDI edge 2.0 screen is perfect for any viewing area.
